

Stuck for an Idea?

Do you have a concept in mind for a display or package and want help in creating a final product? Our in-house structural designers have created from start to finish high-end floor displays, counter displays, hanging signs, and unique product packaging for many of our customers. We have a wide variety of prototypes to choose from as well. If you are looking for a great idea for your next promotion, call or email us for your **FREE** copy of our *Design Ideas and Prototypes* booklet. Contact your sales rep or Tina at 585-512-1229 (tina_beauchemin@fcp.biz)

RECENT AWARDS

- 58th on 2008 Rochester Top 100 list of privately-held companies
- Certificate of Merit (POP Materials) in Premier Print Awards
- Pewter Award (Packaging) in Gold Ink print competition

The FCP Edge: In-house Ink Lab

FCP® has partnered with Ink Systems Inc. to provide on-site ink mixing and technical expertise. A brand new, fully equipped ink lab has been constructed at our facility to support our 24-hour pressroom operation. High quality ink draw downs and expert color matching will continue to be offered as well as expanded capabilities in the area of specialty inks for unique print applications.

We are exhibiting at
GlobalShop 2009!

Booth #6655

March 23 - March 25

Las Vegas

Growing Our Green Initiatives

A solvent recycling system is being installed at FCP to clean used blanket and cylinder wash-up fluids for reuse. An off-press self-contained process, solvent recycling separates spent wash-up fluid into its component parts: solvents that can be put back to work on press, distilled water that can be safely drained, and waste debris that requires no special disposal process. It's environmentally friendly, efficient and economical.
